

MACHINE TO MACHINE COMMUNICATIONS

KORE provides reliable, secure connectivity solutions for applications including ATM's, Digital Signage, Kiosk, Point of Sale, Medical Device, Guest WiFi and WiFi on buses. The KORE multi-carrier advantage, coupled with PRiSMPro, our award-winning management platform, ensures that KORE customers experience world-class service, support and reliability for their wireless deployments locally and across the globe.

All of our solutions are both scalable and secure. With millions of units networked around the world, global wireless operators trust KORE to power their enterprise-scaled IoT and M2M solutions. Flexibility is built in, too, with full failover built in so that the system is truly available 24/7/365

IoT & M2M Services:

- Global Connectivity
- Connectivity Management
- Device Certification
- Application Testing

Why Choose KORE?

Since 2003, we have been the most trusted IoT/M2M service provider of global machine-to-machine (M2M) network connectivity - offering complete global coverage through GSM, CDMA and satellite data services.

Because of our partnerships, our customers can achieve worldwide connectivity through a single connection. A single connection to KORE gives customers access to a multitude of carriers and technology partners locally, regionally and globally who are empowered to efficiently deliver M2M solutions for connected devices around the world.

Scalable Connectivity Platform

Scalable Connectivity Platforms

KORE's award winning PRiSMPro Management Platform supports global Networks and Devices, Cellular and Satellite. PRiSMPro offers a complete feature set that includes real-time, customizable reporting, device and network management, provisioning, billing and usage alerts. It is tied to the leading service delivery platforms used by MNO's and standardized to deliver a single set of management tools.

Benefits

Unparalleled service and support from the leaders in IoT and M2M solutions.

24/7 Global Support

At KORE, we believe that providing the best customer support in the industry is the most important thing we do.

Flexible Pricing

We don't believe in one-size fits all pricing. We work with you to create a customized plan that fits for your business.

Reliability & Security

Global, redundant, 24x7 coverage capable of supporting mission critical applications.

Scalability

Our global network can handle millions of devices and a single connection to KORE provides access to a multitude of carriers.
